## FOREWORD

During 2000, 118 bibliographic items have been published, 14 among them in international scientific journals of highest rank, 3 in the book of an international publisher, 30 in national scientific journals, 2 invited lectures and 6 abstracts of invited lectures of international conferences, 48 as contributed papers of international and national conferences, and 7 in the IAU circulars. Eight invited lectures and progress reports have been given by Observatory's fellows at international conferences and two at national ones, while one monographic text has been published in national publications. Milan Ćirković defended his PhD thesis, whose abstract has also been published. Moreover, Nataša Vranešević defended her M.Sc. thesis.

Number 161 of the Observatory's publication SERBIAN ASTRONOMICAL JOURNAL, as well as Nos. 67, 68, and 69 of the PUBLICATIONS OF THE ASTRONOMICAL OBSERVATORY OF BELGRADE have been issued. These publications are regularly sent to 130 institutions and libraries in 45 countries and to 15 institutions and libraries within Yugoslavia.

Observatory's fellows took part in works of 13 Scientific conferences abroad (30 participations by 16 fellows) and seven conferences in Yugoslavia (39 participation by 17 fellows).

Organized by the Observatory were:

1. II Serbian - Bulgarian Astronomical Meeting, Zaječar (Gamzigradska Banja), 23-26.06.2000.
2. School for young astronomers: Processing of astronomical images by MIDAS software, Research center Petnica, Valjevo, 21-24.11.2000.

Astronomical Observatory was also co-organizer of:

2. III Belarussian - Yugoslav Symposium on Physics and Diagnostics of Laboratory and Astrophysical Plasmas, Minsk 17-21.09.2000.

During 2000, Observatory's fellows have continued collaboration with their colleagues in Argentina, Australia, Austria, Belarus, Belgium, Brazil, Bulgaria, Finland France, Germany, Greece, Hungary, Italy, Japan, Republic of Macedonia, New Zealand, Romania, Russia, Slovakia, Spain, Sweden, Turkey, Ukraina, United Kingdom, USA and Uzbekistan.

Besides 27 newspaper articles, 6 interviews and 20 registered here radio and TV emissions, Observatory's fellows gave 61 lectures on astronomical subjects outside our institution contributing to the cultural life in our country. In addition, 11 lectures were given at the Astronomical Observatory itself.

As from 1998 Astronomical Observatory maintains internet connection available from each one of the personal computers at the Observatory with Windows 95 installed. I note also that Serbian Astronomical Journal is available on www through the Astrophysical Data System (ADS), thanks to the courtesy of the System's holders. The www address is: <http://adswww.harvard.edu/~BOBeo>. As from 1999 the web site of the Belgrade Astronomical Observatory is open and the corresponding www address is: <http://www.aob.bg.ac.yu>. Moreover, the database BELDATA has started developing, being available through the internet at the address:  
<http://www.aob.bg.ac.yu/BELDATA>.

## 1. SOME OF THE MAIN RESULTS OF THE OBSERVATORY'S RESEARCH ACTIVITY

We review here contributions to the science of fellows of Belgrade Observatory published in international journals, the results of observational programmes as well as Ph D. theses, since such contributions should be of particular interest to astronomical community.

Milan M. Ćirković in collaboration with N. Bostrom (Ćirković and Bostrom, 2000) have undertaken a cross-disciplinary cosmological and philosophical study of the distant future of the universe. The influence of recent detections of a finite vacuum energy ("cosmological constant") on our formulation of anthropic conjectures, particularly the so-called Final Anthropic Principle is investigated. It is shown that non-zero vacuum energy implies the onset of a quasi-exponential expansion of our causally connected domain ("the universe") at some point in the future, a stage similar to the inflationary expansion at the very beginning of time. The transition to this future inflationary phase of cosmological expansion will preclude indefinite survival of intelligent species in our domain, because of the rapid shrinking of particle horizons and subsequent depletion of energy necessary for information processes within the horizon of any observer. Therefore, to satisfy the Final Anthropic Hypothesis (reformulated to apply to the entire ensemble of universes), it is necessary to show that (i) chaotic inflation of Linde (or some similar model) provides a satisfactory description of reality, (ii) migration between causally connected domains within the multiverse is physically permitted, and (iii) the time interval left to the onset of the future inflationary phase is sufficient for development of the technology necessary for such inter-domain travel. These stringent requirements diminish the probability of the Final Anthropic Hypothesis being true.

In continuation of the work on the origin and properties of Ly-alpha absorption systems carried out in previous years, Milan M. Ćirković and K. M. Lanzetta (Ćirković and Lanzetta, 2000) have investigated the autocorrelation function of these absorption lines. Recent measurements of the autocorrelation function of the Ly $\alpha$  clouds are analyzed from the point of view of a simple model with strong clustering on the small scales. It is shown that this toy model reproduces fairly well the important linear relation between amplitude of the absorber autocorrelation function and neutral hydrogen column density. In addition, it predicts a correct evolutionary trend of the correlation amplitudes. Some possible ramifications of these results are discussed, and it is found that this is another instance of successful application for the galactic halo model for the origin of large fraction of the Ly-alpha forest lines.

Along the similar track, Milan Ćirković and Srdjan Samurović (Ćirković and Samurović, 2000) have put forward a simple consistency argument for the galactic halo origin hypothesis, based on the recent determination of column-density vs. impact parameter relation for the low-redshift gaseous galactic haloes. It is shown that observations of neutral hydrogen absorption around luminous galaxies are consistent with the index of the power-law column density distribution derived from statistical analysis of large samples of high-redshift Ly-alpha forest lines. The similarity between the two numbers is a pure coincidence, unless one is ready to accept that the dominant signal in samples from which the column density index was determined originates in gaseous haloes of normal galaxies.

Finally, the same topic was tackled from another angle in Milan M. Ćirković, Srdjan Samurović and Aleksandra Djorić (Ćirković et al, 2000), where the discussion of the relationship between cooling radius in two-phase adiabatic halo models and observationally established maximal radius of absorption in luminous galaxies at low redshift is presented. It is of paramount importance that any viable model of the halo is able to reproduce empirical value of the absorption cross-section of normal galaxies and its scaling with luminosity. Several ways for bringing the theoretical and observational values into agreement are outlined in that paper. It is of great methodological importance to fully assess the difficulties any model is likely to encounter when testing predicted extent of absorption and column density distribution against recently obtained low-redshift Ly-alpha absorption data.

In a series of papers Milan S. Dimitrijević and Sylvie Sahal-Bréchot, have performed, by using semiclassical - perturbation formalism, large scale calculations of Stark broadening parameters for a number of spectral lines of various emitters from neutrals up to twelve time charged ions. The results of such calculations are of interest for a number of different problems in physics, astrophysics and plasma technology. Their calculations are performed within the semiclassical - perturbation formalism for a number of radiators. As the continuation of this project, Milan S. Dimitrijević and Sylvie Sahal - Bréchot (Dimitrijević and Sahal-Bréchot, 2000) have considered Stark broadening within F VI, Cl VII and Kr VIII spectra. Chlorine and fluorine spectral lines have been observed in Solar (Moore, Minnaert and Houtgast, 1966), as well as in stellar spectra (Merrill, 1956). In Trimble (1991) has been reported that chlorine and fluorine have been found in the ejecta of SN 1987 A supernova. With the development of space-borne spectroscopy, spectral line parameters even for trace elements become of increasing interest for astrophysics. Fluorine is a product of hydrogen burning in stellar interiors and envelopes, chlorine a product of alpha processes - neutron capture on slow time scale (slow means slower than typical beta decay time) where the first step would be photostripping of alpha particles from some  $\text{Ne}^{20}$  nuclei and their subsequent capture by others, and krypton a product of s (neutron capture on slow time scale orderly evolution of stellar interiors) and r (neutron capture on fast time scale in type I supernovae) processes. Consequently, the data on the spectral line broadening parameters of these elements in various ionization stages are of interest for the considering and modelling of stellar plasma, particularly subphotospheric layers and radiative transfer in stellar interiors. For the investigation and developing of soft X-ray lasers, such data may be useful too (see e.g. Griem and Moreno, 1990, and,

Fill and Schöning, 1994). Also, line broadening data for multiply charged ions are of significance for the fusion plasmas and laser-produced plasmas research, and for the investigation of Stark broadening parameter systematic trends along isoelectronic sequences.

Within the semiclassical-perturbation formalism, Milan S. Dimitrijević and Sylvie Sahal - Bréchot (Dimitrijević and Sahal-Bréchot, 2000) have calculated electron-, proton-, and He III-impact line widths and shifts for 2 fluorine VI, 10 chlorine VII and 6 krypton VIII multiplets, for a perturber density of  $10^{17} \text{ cm}^{-3}$  and temperatures  $T = 100,000 - 2,000,000 \text{ K}$  for F VI and Cl VII, and  $T = 200,000 - 3,000,000 \text{ K}$  for Kr VIII. There are no experimental results concerning F VI, Cl VII and Kr VIII. However, for the Cl VII 2178.8 Å predictions by Purić et al (1988) on the basis of systematic trends along isoelectronic sequences exist, and are in rather good agreement with semiclassical - perturbation results of Dimitrijević and Sahal - Bréchot (2000).

Within the above mentioned semiclassical approach, Milan S. Dimitrijević and Sylvie Sahal - Bréchot (Dimitrijević and Sahal-Bréchot, 1999) have considered also electron-, proton-, and ionized helium-impact line widths and shifts for 20 In III and 2 Tl III multiplets, for perturber density of  $10^{17} \text{ cm}^{-3}$  and temperatures  $T = 20,000 - 500,000 \text{ K}$ , and electron-, proton-, and He III-impact line widths and shifts for 2 Pb IV multiplets, for perturber density of  $10^{17} \text{ cm}^{-3}$  and temperatures  $T = 50,000 - 1,000,000 \text{ K}$ . The obtained data contribute to finding out a large set of reliable semiclassical Stark broadening data of significance for astrophysical and laboratory plasma research.

Luka Č. Popović and Milan S. Dimitrijević (Popović and Dimitrijević, 2000) published Stark broadening parameters for 52 transitions of singly-, doubly-, and triply-charged vanadium ions calculated by using the modified semiempirical method developed by Dimitrijević, Konjević and Kršljanin (Dimitrijević and Konjević, 1980; Dimitrijević and Kršljanin, 1986). The Stark widths and shifts have been calculated for an electron density of  $10^{23} \text{ m}^{-3}$  and presented as a function of electron temperature. Vanadium is present in stellar and solar plasmas, and atomic and spectroscopic data for its ions, including Stark broadening parameters, are of interest for the investigation and modeling of such plasmas. The Stark broadening mechanism is the main pressure broadening mechanism in stellar plasma conditions with  $T_{\text{eff}} \geq 10000 \text{ K}$ , i.e. for plasma present in A and B-type stars photospheres. Moreover, it has been found that vanadium is overabundant in some A-type stars. For example Van't Veer-Mennert, Coupry and Burkhardt (1985) have found vanadium overabundance in the Am star HR178, and Sadakane and Ueta (1989) an overabundance in Sirius, also an A-type star. Kocer et al. (1993) have compared V I and V II spectral lines in θ Cyg, ι Psc, 15 Vul, 32 Aqr, and the Sun and they found similar vanadium abundance in all stars considered. Consequently, Stark broadening parameters for vanadium ion lines are of interest not only for the laboratory plasma research and for the testing and developing of the Stark broadening theory for shapes of multicharged ion lines, but also for the consideration of stellar plasma. In the case of singly-, doubly-, and triply-ionized vanadium it is not possible to use the semiclassical method for the calculation of Stark broadening parameters in an adequate manner and with the accuracy usually expected, due to the lack of the reliable atomic data required. Consequently, it is jus-

tified to apply simpler methods like the modified semiempirical method (Dimitrijević and Konjević, 1980; Dimitrijević and Kršljanin, 1986). The obtained results have been compared with simple estimates for V II  $a^5D - z^5F^0$  transition based on regularities and systematic trends (Lakićević, 1983). The agreement is good for the width, indicating that such estimates may be of interest for the Stark width estimates when more sophisticated calculations do not exist. For the shift however, the disagreement is considerable.

Milan S. Dimitrijević and Luka Č. Popović in collaboration with Vladimir Milosavljević and Stevan Djeniže published in 2000 (Milosavljević et al., 2000) experimental results for Stark widths and shifts of 14 singly (Kr II) and 11 doubly charged (Kr III) krypton ion spectral lines, measured in the linear, low pressure, pulsed arc at 17,000 K electron temperature and  $1.65 \times 10^{23} \text{ m}^{-3}$  electron density. These results are the very first ones for Kr III Stark line shift determination, and the second experimental results of reliable Kr II Stark line shifts. Moreover, 14 Kr II Stark line shifts and 2 Kr II Stark linewidths have been calculated within the frame of the modified semiempirical method (Dimitrijević and Konjević, 1980; Dimitrijević and Kršljanin, 1986). Results of calculations by using the modified semiempirical method, of Stark widths and shifts for 5 Kr III multiplets and such results for 3 Kr III multiplets by using the simplified modified semiempirical method (Dimitrijević and Konjević, 1987) are also presented. The obtained results are compared with other experimental and theoretical results.

One should emphasize here that with the help of the Goddard high resolution spectrograph on the Hubble space telescope, krypton has been detected for the first time in the spectra of the interstellar medium (Cardelli, Sarage and Ebbets, 1991; Cardelli and Mayer, 1997), which represents the material from which the young early type stars (as e.g., Ap and Bp type stars where Stark broadening data are of interest) are formed (Leckrone et al., 1993). Consequently, the obtained results will be of help not only for laboratory plasma diagnostics and krypton plasma research and modeling, but also for the analysis of the trace element spectral lines and abundances.

The knowledge on regularities and systematic trends for Stark line shifts within a given spectrum as e.g. similarities among Stark line shifts within a multiplet, supermultiplet or transition array and systematic trends within a spectral series, is useful for the interpolation of new data and the critical evaluation of experimental data. Milan S. Dimitrijević and Dragana Tankosić (Dimitrijević and Tankosić, 2000) analyzed exceptions to the established shift regularities, on the basis of critically selected experimental data as well as of results of semi-classical calculations. It has been demonstrated that the principal reason for the irregularities discussed, is the influence of the intercombination and forbidden perturbing transitions.

Gojko Djurašević in collaboration with Skopal, A., Jones, A., Drechsel, H., Rovithis-Livaniou, H. and Rovithis, P. (Skopal et al. 2000) performed a photometric study of the eclipsing symbiotic binary AR Pavonis. Light curves of this long period close binary system ( $P \sim 604.6$ ) in quiet and outburst phases are similar to light curves of cataclysmic close binary systems. Consequently, in the considered system an intense matter exchange between components occurs, so that for the analysis of these observations, close binary sysstem model with accretion disk has been suggested.

Development and application of adequate model of this symbiotic close binary system represents a key contribution to the understanding of physical processes within the system. Optimal model synthetic lightcurves, obtained by solving inverse problem, fit very well observations, so that it is possible to make a real estimate parameters of components, accretion disc and hot-spot due to capture of gas stream from the second component. The accretion disc temperature profile is estimated too, which in the quiet phase deviates considerably from steady state approximation. The distance to the system has been estimated from analysis of observations, as well as the components mass ratio, mass and radius of the giant component loosing mass.

Slobodan Jankov in collaboration with E. Janot-Pacheco and N. V. Leister (Jankov et al, 2000) presents, for the first time, the Fourier-Doppler Imaging (FDI) analysis of periodic line profile variations in a  $\zeta$  Oph-type star. For this purpose they obtained, in 1996 May 3 to May 5, a total of 242 high resolution, high signal-to-noise ratio spectra of the Be star  $\zeta$  Oph itself. Using the FDI technique, they examine the variations in both time and wavelength and complement it with time series analysis. This kind of analysis is valid for both non-radial pulsator and rotation modulation model but they discuss the results in terms of the former model, considering it as the more likely explanation for the observed line profile variability. Two distinct groups of modes are detected: medium ( $4 \leq l \approx |m| \leq 8$ ) and high-degree ones (that could be associated with  $13 \leq l \approx |m| \leq 17$ ). It is shown that the high-frequency oscillations were strongly confined to an equatorial belt narrower than 20 deg, and that the line profile variability was caused predominantly by sectoral modes, although tesseral modes  $|m| = l - 1$  are not excluded accounting for the effect of fast rotation. They discuss the modal nature of the waves with respect to the characteristic oscillation periods in the corotating frame and the high amplitude of the projected rotational velocity variations ( $\approx 20$  km/s).

Darko Jevremović in collaboration with J. G. Doyle and C. I. Short, considered (Jevremović et al, 2000) the influence of the non-thermal velocity (micro-turbulence) on the formation of chromospheric lines in the atmospheres of late type dwarfs. A review of previous work shows a variety of different approaches to the problem leading to different atmospheric structures and consequently different computed line profiles. In that light, they re-examine the formation of the Hydrogen Balmer lines and Na i D lines using twelve different distributions of the micro-turbulent velocity throughout the atmosphere. Their results show a wide range of possible line shapes. Using the analogy with the solar case and the latest results of the non-thermal component widths as derived from instruments on-board SOHO, they model H alpha and the Na i D lines in an active dMe star Gl 616.2. This study is based in part on observations made at Observatoire de Haute Provence (CNRS), France and SOHO.

Silvana Nikolić in collaboration with Kiss, Cs., Tóth, L. V., Moór, A., Sato, F., and Wouterloot, J. G. A., (Kiss et al. 2000) presented the results of optical, far-infrared and radio observations of the small, non-star forming dark cloud Khavtassi 15, located in the Upper Cepheus–Cassiopeia region. They derive the average extinction and the distance from Digitized Sky Survey data and star counts using objective prism spectroscopy. A fully computerized algorithm was used for non-biased analysis of starcount data. A kinetic temperature of 7 K and a peak number density were

estimated from multiisotopic, multilevel CO measurements. CO measurements also revealed three main condensations inside the cloud. Kh 15 has a total gas mass of 34 solar masses and it is most probably part of a shell seen as a FIR loop called GIRL126+10. We investigated the correlation among optical extinction, radio and FIR emission and masses derived for the dust and gas inside the cloud core. Stability analysis has shown, that Kh 15 is not far from gravitational virial equilibrium, and may be fully stabilized by the external pressure. In addition to Kh 15, the starcounts also indicate the presence of an extended nearby extinction layer at which they consider as the wall of the Local Bubble (LB) towards the Upper Cepheus-Cassiopeia. Distances of the dark clouds LDN 1308, LDN 1333 and Khavtassi 19 are also estimated.

The orbital elements, masses and orbital parallaxes are communicated for the first time by Georgije Popović, Rade Pavlović and Vesna Živkov (2000) for the following eight double stars: WDS 04089+4614 = ADS 3007 = A 998 = HD 25987, WDS 04275+1113 = ADS 3228 = BU 1186 = HD 28217, WDS 04400+2301 = ADS 3370 = HU 442 = HD 29538, WDS 18018+0118 = ADS 10990 = AB = BU 1125 = HD 164577, WDS 18033+3921 = ADS 11023 = STF 2275 = HD 88432, WDS 18054+6216 = ADS 11073 = HU 1290 = HD 166206, WDS 19389+3514 = ADS 12746 = HU 953 = HD 185696, WDS 20176+2622 = ADS 13649 = BU 984 = HD 193095. The orbital elements are derived by using the procedure proposed by Popović and Pavlović (1995) while the absolute magnitudes of the components, masses and parallaxes are obtained by applying Angelov's (1993) relations.

During 2000, Milan M. Ćirković defended at the State University of New York in Stony Brook his Ph D Thesis *Gaseous Galactic Haloes and Ly $\alpha$  Absorption Line Systems*. This thesis studies various aspects of the intragalactic origin theory for a large fraction of Ly $\alpha$  absorption line systems observed in spectra of all known QSOs. This long-standing problem has been approached along several different lines, with underlying assumption of the basic unity of physical processes relevant for the structure and evolution of the baryonic content of the universe. A new wave of interest in galactic origin of Ly $\alpha$  forest absorption systems has recently been sparked by observational determination of the extent and structure of extended gaseous haloes of luminous galaxies, and is yet far from being exhausted.

One of the main conclusions is that all observational data gathered so far are in compliance with the picture of two populations of physical objects causing Ly $\alpha$  absorption in QSO spectra: a diffuse, unclustered population of primordial IGM inhomogeneities, dominant at high redshift and the lowest column densities; and population of clouds residing in gaseous haloes of luminous galaxies dominant at low- and intermediate-redshifts and in the higher column density regime. The gradual transition between these two populations represents a major evolutionary event in the history of the gaseous content of the universe. Another lesson learnt in the course of the present work, is that while unraveling the puzzles of the baryonic matter evolution in the universe we need an interdisciplinary approach which will connect seemingly unrelated fields of physics and astronomy into a coherent picture of structure and evolutionary development of the matter as we know it.

During 2000, Nataša Vranešević obtained at Belgrade University the M. Sc. degree with the thesis entitled *Milky Way Kinematics in Solar Neigborhood on the Basis of*

*the Heliocentric Velocities Module Analysis.*

At the Large Refractor of the Astronomical Observatory, Georgije Popović and Rade Pavlović continued their observations of binary or multiply systems, with the help of a CCD St-6 camera. Their results from 1998-2000 period, together with results of Danilo Zulević from March 1990 until his death in 1998 are published in Zulević, Popović and Pavlović (2000). At the visual telescope of the Ascania astrophotograph of 13,5/160 cm, photographic observations have been performed by V. Protitch Benishek with CCD ST-6 and ST-8 cameras. Results of comets C/1999 L3 (LINEAR) and C/1999 S4 (LINEAR) as well as minor planets 2000 DO<sub>1</sub>, 1999 RH<sub>27</sub> and 1999 NS<sub>3</sub> observations have been reported in several IAU Circulars. Moreover, 143 precise astrometric positions of seven comets from CCD observations during the period December 1998 - June 2000 have been published (Protitch-Benishek and Benishek, 2000).

## 2. EQUIPMENT AND FACILITIES

In consequence of the economic situation after the NATO attack on Yugoslavia nothing could be purchased during 2000.

However within the contract of mutual compensation with Stevan Filipović, a wooden bridge between two wings on the roof of the main Observatory's building has been installed, as well as a number of different repairs effected.

"CENTER" - Belgrade, sponsored the publishing of Publ. Astron. Obs. Belgrade Nos. 66 and 68.

Predrag Marčeta ("MARČETING" - Beograd) sponsored the reparation of the chimney on the main Observatory's building.

ŽTP - Beograd (Svetolik Kostadinović) sponsored two railway tickets for international scientific collaboration.

JAT sponsored 50% of Belgrade – Moscow tickets price for 5 persons for JENAM meeting in Moscow.

### 3. BUDGET

#### INCOMES IN DINARS IN THE PERIOD JAN. - DEC. 2000

##### I PUBLIC INCOMES

1. From the Ministry of Science and Technology of Serbia:	
1.1 for the project "Astrometrical, Astrodynamical and Astrophysical Researches" .....	3 692 639.00
1.2 for the Time Keeping and Geographic Coordinate Determination Service .....	444 160.00
1.3 other incomes from the same Ministry .....	502 222.70
2. From the Federal Ministry for Development, Science and Environment Protection:	
2.1 for the project "Multidisciplinary Investigations of Current Earth Crust Movements on Yugoslav Territory" .....	47 065.00
2.2 support for diverse activities .....	3 000.00

##### II INCOMES FROM RENDERING SERVICES INSIDE YUGOSLAVIA

1. Judiciary expertises .....	11 548.00
-------------------------------	-----------

##### III OTHER SPECIAL INCOMES

1. Revenues from the work market (refunds for the trainees) .....	45 949.73
2. Revenues from the interest rates .....	1 037.22
3. Extraordinary revenues .....	8 904.00

TOTAL (I+II+III) .....	4 756 525.65
------------------------	--------------

## EXPENDITURES

### I EXPENCES ON MATERIAL, ENERGY, SPARE PARTS AND SMALL STOCKS

1.	Expences on material small stocks, office stocks, sanitary stocks, journals and books	
1.1	Expences on small stocks .....	25 759.43
1.2	Expences on office stocks .....	63 781.10
1.3	Expences on sanitary stocks .....	16 699.00
1.4	Expences on journals and books for general services .....	35 758.50
2.	Expences on energy and combustible	
2.1	Expences on coal; "KOPAONIK", Beograd .....	104 448.75
2.2	Expences on electricity; "ELEKTRODISTRIBUCIJA", Beograd .....	54 555.88
	Total .....	301 003.66

### II EXPENDITURES ON SALARIES AND CONTRIBUTIONS CHARGING THE EMPLOYER

1.	Net salaries .....	1 201 028.15
2.	Taxes charging the employer .....	231 929.65
3.	Contributions charging the employer .....	626 505.92
4.	Annual vacation reimbursement, prizes, other supports of the staff .....	91 279.05
	Total .....	2 150 742.77

### III EXPENDITURES ON THE EQUIPMENT PURCHASES IN 2000

Total .....	0.00
-------------	------

### IV EXPENDITURES ON PRODUCTIVE SERVICES

1.	Post and telephone services .....	69 844.11
2.	Public transport expences .....	36 008.81
3.	Investments and investment maintenance of the working means	
3.1	Repairing of four radiators, dismantling of the old irradiated heating tubes network and installing of a modern one "MARČETING" - Belgrade (Predrag Marčeta) .....	216 117.00

3.2 Upgrading and repairs of computer equipment, urgent interventions and current maintenance .....	31 214.00
4. Recycling of the printer toner cassette .....	15 465.80
5. Announcements in newspapers .....	198.00
6. Expences on consumed water .....	5 429.34
7. Expences on garbage removal .....	14 869.64
8. Accomodation of foreign guests .....	19 816.42
9. Expences on photo services .....	6 069.00
Total .....	585 118.67

## V EXPENDITURES ON NON PRODUCTIVE SERVICES

1. Job Contracts .....	151 950.04
2. Expenditures on printing of the Observatory's publications in 2000	
2.1 Serb. Astron. J. No 160; "PORTAL Co", Beograd .....	27 500.00
2.2 Publ. Astron. Obs. Belgrade No 67; "Banjac Grafika", Beograd .....	21 000.00
2.4 Serb. Astron. J. No 161; "PORTAL Co", Beograd .....	40 000.00
2.5 Publ. Astron. Obs. Belgrade No 69; "PORTAL Co", Beograd .....	56 000.00
4. Spanish language course for G. Damljanović .....	6 290.00
5. Expences on photocopying outside the Observatory .....	9 666.20
6. Expences on lawyer services .....	20 740.00
Total .....	333 146.24

## VI NONMATERIAL EXPENCES

1. Transport expences on business trips .....	239 925.95
2. Transport to work place for the staff-members .....	66 359.12
3. Meals for the staff-members .....	215 172.71
4. Binding of books and journals in hard cover .....	500.00
5. Representation .....	126 270.37
6. Payments transactions .....	15 670.36
7. Membership fees .....	3 100.00
8. Taxes .....	3 617.78
Total .....	670 616.29

VII EXPENCES ON TAXES AND CONTRIBUTIONS

1. Taxes on the building plot .....	2 445.06
2. Social insurance contributions charging the employer .....	711 552.02
Total .....	713 997.08

---

GRAND TOTAL (I+II+III+IV+V+VI+VII)	4 754 623.71
------------------------------------	--------------

---

Incomes - Expenditures Difference	+ 1 901.94
-----------------------------------	------------

---

## 5. LECTURES HELD BY THE OBSERVATORY FELLOWS AND GUESTS

### 5.1. LECTURES HELD AT THE ASTRONOMICAL OBSERVATORY

1. 19.04.2000

Milan Ćirković

Fizička eshatologija

(Physical eschatology)

2. 26.04.2000

Anatolij A. Mihajlov

Uloga radijacionih, hemi-jonizacionih i hemi-rekombinacionih atomskih sudarnih procesa u zvezdanim atmosferama

The role of radiative, chemi-ionization and chemi-recombination atomic collisional processes in stellar atmospheres

3. 3.05.2000

Aleksandar Bogojević

Novi model formiranja planetarnih sistema

(A new model of planetary systems formation)

4. 10.05.2000

Aleksandar Belić

Skaliranje i univerzalnost gravitacione kondenzacije

(Scaling and the universality of gravitational condensation)

5. 1.06.2000

M. S. De Biasi

The arclength method of analysis and reduction of astrometric VLBI data

6. 17.06.2000

Milan S. Dimitrijević

Astronomski opesvatorija u Beogradu

(Belgrade Astronomical Observatory)

(For the students and professors of the secondary school from Bijeljina)

7. 13.09.2000

Balša Terezić

Separabilni potencijali u troosnim galaksijama

(Separable potentials in three-axial galaxies)

8. 20.09.2000  
Milan S. Dimitrijević  
Opservatorija u Armagu  
(Armagh Observatory)
9. 27.09.2000  
Jelena Milogradov-Turin  
Medjunarodne astronomske olimpijade  
(International astronomical Olympiads)
10. 18.10.2000  
Veljko Vujičić  
O Njutnovim teoremama o uzajamnom privlačenju tela  
(On Newton's theorems on mutual attraction of bodies)
11. 27.11.2000  
Gotthard Richter, Petra Böhm  
Astrophysical observatory in Potsdam

## **5.2. LECTURES HELD BY THE OBSERVATORY'S FELOWS OUTSIDE THE ASTRONOMICAL OBSERVATORY**

1. 4.01.2000  
Slobodan Jankov  
Doppler Imaging of non-radially pulsating stars  
L'Institut d'Astrophysique Spatiale, Orsay, France
2. 2.02.2000  
Milan S. Dimitrijević  
Astrologija - Nauka 21. veka ili prevara  
(Astrology -The Science of the 21<sup>st</sup> century or fraud)  
Rotary Club - Beograd Stari grad (Belgrade Old city)
3. 3.02.2000  
Silvana Nikolić  
Uvod u radioastronomiju  
(Introduction to radioastronomy)  
Research center Petnica, Valjevo
4. 3.02.2000  
Silvana Nikolić  
Kratak pregled najnovijih rezultata posmatračke radio astronomije  
(Short review of the recent results of observational radioastronomy)  
Research center Petnica, Valjevo
5. 7.02.2000  
Edi Bon

Planete Suncevog sistema  
(Solar system planets)  
Research center Petnica, Valjevo

- 6 8.02.2000

## 6. TV AND RADIO EMISSIONS

1. M. Dačić je redovno dostavljao obdanice za Radio Beograd, Radio Suboticu i Radio Futog  
M. Dačić supplied regularly data on the length of day and night for Radio Belgrade, Radio Subotica and Radio Futog
2. Program za mlade: Korak ka nauci  
(O kalendaru i o početku trećeg milenijuma)  
M. S. Dimitrijević, voditelj Marija Mišić  
Radio Beograd I, 2.01.2000 9h - 10h  
Programme for young: A step toward the science  
(On the calendar and on the beginning of the third millenium)  
M. S. Dimitrijević, emission host Marija Mišić  
Radio Beograd I, 2.01.2000 9h - 10h
3. Muzika koju volim  
(O kraju II i početku III milenijuma i o Astronomskoj opservatoriji)  
V. Protić - Benišek, voditelj Jovan Pavliček  
TV Beograd I, 3.02.2000 23h 15m - 24h  
The music I love  
(On the end of the 2nd and the beginning of the 3rd millenium and on the Astronomical Observatory)  
V. Protić - Benišek, emission host Jovan Pavliček  
TV Belgrade I, 3.02.2000 23h 15m - 24h
4. Vreme radoznalosti  
(Akademik V. V. Mišković i Astronomска opservatorija u Beogradu)  
V. Protić - Benišek  
Radio Beograd I, 7.02.2000 8h  
The time of curiosity  
(Academician V. V. Mišković and Belgrade Astronomical Observatory)  
V. Protić - Benišek  
Radio Belgrade I, 7.02.2000 8h
5. Svet geografije: Beogradske opservatorije  
M. S. Dimitrijević, L. Č. Popović, voditelj Ljiljana Janković  
Timočka televizija, Zaječar, 13.02.2000, 17h - 17h 35m  
The World of Geography: Belgrade Observatories  
M. S. Dimitrijević, L. Č. Popović, voditelj Ljiljana Janković  
"Timočka" Television, Zaječar, 13.02.2000, 17h - 17h 35m
6. Repriza: Svet geografije: Beogradske opservatorije  
M. S. Dimitrijević, L. Č. Popović, voditelj Ljiljana Janković

Timočka televizija, Zaječar, 14.02.2000, 18h 45m - 19h 20m  
Reproduction: The World of Geography: Belgrade Observatories  
M. S. Dimitrijević, L. Č. Popović, the emission host Ljiljana Janković  
"Timočka" Television, Zaječar, 14.02.2000, 18h 45m - 19h 20m

7. Muzika koju volim (repriza)  
(O kraju II i početku III milenijuma i o Astronomskoj opservatoriji)  
V. Protić - Benišek, voditelj Jovan Pavliček  
TV Beograd I, 24.02.2000  
The music I love (reproduction)  
(On the end of the 2nd and the beginning of the 3rd millenium and on the Astronomical Observatory)  
V. Protić - Benišek, emission host Jovan Pavliček  
TV Belgrade I, 24.02.2000
8. Vesti (Veče geografije i astronomije u Radul Begovom konaku, predavanje o Djordju Stanojeviću)  
M. S. Dimitrijević, voditelj Ljiljana Janković  
Timočka televizija, Zaječar, 4.03.2000  
News (The geography and astronomy evening in Radul Beg "Konak", the lecture on Djordje Stanojević)  
M. S. Dimitrijević, the emission host Ljiljana Janković  
"Timočka" Television, Zaječar, 4.03.2000
9. TV Dnevnik 2 i 3 (Potpisivanje ugovora o objavlјivanju kataloga numizmatičke zbirke srpskog srednjevekovnog novca Sergija Dimitrijevića)  
PM. S. Dimitrijević  
TV Beograd 1, 8.03.2000  
TV Diary 2 and 3 (Signing of the agreement on publishing the catalogue of the Serbian medieval coins numismatic collection of Sergije Dimitrijević)  
M. S. Dimitrijević  
TV Belgrade 1, 8.03.2000
10. Jutarnji program (Kratak razgovor o početku proleća)  
Miodrag Dačić  
Radio Beograd I, 20.03.2000 Morning Program  
(Short talk on the beginning of the spring)  
M. Dačić  
Radio Belgrade I, 20.03.2000
11. Naučni leksikon (O nastanku kometa sa posebnim osvrtom na Halejevu kometu)  
Milan S. Dimitrijević, urednik Ilija Cerović  
TV Beograd 2, 13.04.2000, 16h30m.  
Science Lexicon (On the origin of comets with special reference to on the Halley comet)  
Milan S. Dimitrijević, editor Ilija Cerović  
TV Belgrade 2, 13.04.2000, 16h30m.

12. Emisija posvećena naučnoj fantastici  
Milan M. Ćirković  
Radio B2-92, 13.04.2000.  
Emission dedicated to Science Fiction  
Milan M. Ćirković  
Radio B2-92, 13.04.2000.
13. TV emisija "Napjaink" (Planete u nizu 5. 5. 2000. godine, Sunčeva budućnost i Uticaj Sunčevog zračenja na Zemljinu atmosferu)  
Ištvan Vince  
TV Novi Sad, 1.05.2000.  
TV emission "Napjaink" (Planets in a row on 5.05.2000, The future of the Sun and, The influence of Solar radiation on Earth's atmosphere)  
Ištvan Vince  
TV Novi Sad, 1.05.2000.
14. BK Parlament (Poredjane planete)  
Ištvan Vince  
BK Televizija, Beograd, 3.05.2000.  
BK Parliament (Lined up planets)  
Ištvan Vince  
BK Television, Belgrade, 3.05.2000.
15. Nauka, Tehnologija, Privreda (O vasioni u kojoj će se zvezde ugasiti)  
Milan S. Dimitrijević, urednik Gordan Ranitović  
TV Beograd 1, 2.07.2000, 17h30m.  
Science, Technology, Economy (On the Universe once the stars are extinguished)  
Milan S. Dimitrijević, editor Gordan Ranitović  
TV Belgrade 1, 2.07.2000, 17h30m.
16. Prilog o erupcijama na Suncu koje izazivaju poremećaje na Zemlji  
Ištvan Vince  
TV Studio B, Beograd, 15.07.2000.  
A contribution concerning eruptions causing disturbances on the Earth  
Ištvan Vince  
TV Studio B, Belgrade, 15.07.2000.
17. Iz dana u dan (Erupcije na Suncu i njihov uticaj na Zemlju  
Ištvan Vince  
Radio Beograd II, 26.07.2000.  
From day to day (Solar eruptions and their influence on Earth  
Ištvan Vince  
Radio Belgrade II, 26.07.2000.
18. Naučni leksikon: Postanak našeg univerzuma; Teorija Velikog praska  
Nataša Stanić  
RTV Srbije, Beograd, 12.09.2000.  
Scientific Lexicon: The origin of our Universe; The Big Bang theory

Nataša Stanić

RTV of Serbia, Belgrade, 12.09.2000.

19. Tokovi nauke (O 20 SPIG-u, astrofizičkoj plazmi i astronomskim spektrima)  
Milan S. Dimitrijević, voditelj Olivera Simić - Milošević  
Radio Beograd 1, 13.09.2000, 8h-9h.  
Ways of science (On 20th SPIG, astrophysical plasma and astronomical spectra)  
Milan S. Dimitrijević, emission host Olivera Simić - Milošević  
Radio Belgrade 1, 13.09.2000, 8h-9h.
20. Tokovi nauke (O 20 SPIG-u, astrofizičkoj plazmi i astronomskim spektrima) (reprezija)  
Milan S. Dimitrijević, voditelj Olivera Simić - Milošević  
Radio Beograd 1, 20.09.2000, 8h-9h.  
Ways of science (On 20th SPIG, astrophysical plasma and astronomical spectra)  
(reproduction)  
Milan S. Dimitrijević, emission host Olivera Simić - Milošević  
Radio Belgrade 1, 20.09.2000, 8h-9h.
21. Podnevni program (Razgovor o zanimljivostima iz astronomije, posebno o pomračenju Sunca avgusta 1999. godine)  
M. Dačić  
Radio Futog 30.10.2000  
Noon program (Talks on curiosities in astronomy, especially on the August 1999 Solar eclipse)  
M. Dačić  
Radio Futog 30.10.2000

## 7. PUBLISHING

### 7.1. EDITIONS OF THE ASTRONOMICAL OBSERVATORY

#### 1. SERBIAN ASTRONOMICAL JOURNAL

M. S. Dimitrijević - Editor in chief  
L. Č. Popović - Editor  
S. Ninković - member of the Editorial Board  
I. Vince - member of the Editorial Board

#### 2. PUBLICATIONS OF THE ASTRONOMICAL OBSERVATORY OF BELGRADE

M. S. Dimitrijević - Editor in chief  
L. Č Popović - Editor  
G. Djurašević - member of the Editorial Board  
S. Jankov - member of the Editorial Board  
S. Ninković - member of the Editorial Board  
G. Popović - member of the Editorial Board  
I. Vince - member of the Editorial Board

#### 3. BILTEN REFERATA ZA IZBOR U ZVANJA, Astronomske opservatorije (BULLETIN OF REPORTS ON CANDIDATES FOR ACADEMIC RANKS)

M. S. Dimitrijević - Editor

### 7.2 EDITIONS WHEREIN FELLOWS OF ASTRONOMICAL OBSERVATORY ARE AT EDITORIAL BOARDS OR SCIENTIFIC COUNCILS

#### 1. VASIONA (UNIVERSE)

M. S. Dimitrijević - Editor in chief  
L. Č. Popović - member of the Editorial Board  
M. Dačić - member of the Editorial Board  
M. Ćirković - member of the Editorial Board

#### 2. FLOGISTON časopis za istoriju nauke, Muzej nauke i tehnike (Journal for the history of science, Museum of science and technics), Beograd

M. S. Dimitrijević -member of the Scientific Council

#### 3. Biblioteka "DISSERTATIO" (Edition "DISSERTATIO") Zadužbina Andrejević (Andrejević foundation)

M. S. Dimitrijević - president of the Editorial Board and member of the Scientific Council of the foundation

3.1 Dr Biljana Trebješanin

Mladi fizičar "S", (Young Physicist "S")  
M. S. Dimitrijević - member of the Editorial Council

## 7.3 REVIEWING

### 7.3.1 THE PUBLICATION REVIEWING

1. Dr Dragan Gajić  
Udarni talasi u kosmosu  
Reviewers: Dr Božidar Milić, Dr Milan Dimitrijević  
Klub NT, Beograd 1999

### 7.3.2 REVIEWING IN INTERNATIONAL JOURNALS

1. ICARUS  
Zoran Knežević (1)
2. CELESTIAL MECHANICS AND DYNAMICAL ASTRONOMY  
Zoran Knežević (1)
- 3 EARTH, MOON AND PLANETS  
Zoran Knežević (1)

## 8. ORGANIZATION OF CONFERENCES

1. II Serbian - Bulgarian Astronomical Meeting, Zaječar (Gamzigradska Banja), 23-26.06.2000.

Scientific Committee

Milan S. Dimitrijević, Co-Chairman  
Miodrag Dačić  
Luka Č. Popović  
Ištvan Vince

Organizing Committee

Nenad Milovanović, Chairman  
Edi Bon  
Tanja Milovanov  
Nataša Stanić

2. 15<sup>th</sup> International Conference on Spectral Line Shapes ICSLS XV, Berlin 10-14 July 2000.

International Scientific Committee

Milan S. Dimitrijević

3. 20<sup>th</sup> Summer School and International Symposium on the Physics of Ionized Gases, 20<sup>th</sup> SPIG, Zlatibor 4-8 September 2000.

Scientific Committee

Milan S. Dimitrijević

4. III Belarussian - Yugoslav Symposium on Physics and Diagnostics of Laboratory and Astrophysical Plasmas, Minsk 17-21 September 2000.

Scientific Organizing Committee

Milan S. Dimitrijević Co-chairman  
L. Č. Popović

5. Balkan Meeting of Young Astronomers, Belogradchik, 25-29 September 2000.

Scientific Committee

Luka Č. Popović

6. School for Young Astronomers: Processing of Astronomical Images by MIDAS Software, Research Center Petnica, Valjevo, 21-24 November 2000.

Organizers

L. Č. Popović

E. Bon

O. Vince

## 9. MEMBERSHIP IN INTERNATIONAL AND NATIONAL SCIENTIFIC SOCIETIES AND BODIES

### 9.1. MEMBERSHIP IN INTERNATIONAL SCIENTIFIC SOCIETIES

#### 1. International Astronomical Union

J. Arsenijević  
M.S. Dimitrijević (Commissions 14, 36)  
G. Djurašević  
D. Jevremović (since XXIV IAU General Assembly, Manchester 2000)  
Z. Knežević (Commissions 7 (Member of the organizing committee), 15, 20)  
A. Kubičela (Commission 12)  
S. Ninković (Commisions 28, 33, 38)  
I. Pakvor (Commission 8)  
G. Popović (Commission 26)  
V. Protić - Benišek (Commission 20)  
S. Sadžakov (Commission 8, 19)  
I. Vince (Commission 12)

#### 2. European Astronomical Society

J. Arsenijević  
Z. Cvetković  
M. Dačić  
M.S. Dimitrijević  
S. Ninković  
L. Č. Popović  
V. Protić - Benišek  
S. Sadžakov  
I. Vince

#### 3. Euro-Asian Astronomical Society

M.S. Dimitrijević  
G. Djurašević  
S. Ninković  
L. Č. Popović

#### 4. Hungarian Astronomical Society

I. Vince

5. American Physical Society

M. M. Ćirković

6. Astronomische Gesellschaft

S. Ninković

S. Sadžakov

7. International Occultation Timing Association - European Section

V. Protić - Benišek

8. Astronomical Society of the Pacific

M. Ćirković

S. Ninković

9. Royal Astronomical Society of New Zealand

Lj. Skuljan

10. Spaceguard Foundation

(International non governmental organization for coordination of activities concerning PHA - Potentially Hazardous Asteroids and NEO - Near Earth Objects)

Z. Knežević

In charge of the WWW site AstDyS (Asteroid Dynamic Site). Member of the AstDSyS and OrbFit [Software for Orbital Determination (Fit)] consortiums. Member of the DPS AAS and Spaceguard Foundation.

11. Division of Planetary Sciences of the American Astronomical Society

Z. Knežević

12. British Society for the Philosophy of Science

M. Ćirković

13. EuroScience Association

L. Č. Popović

14. Philosophy of Science Association (Headquater in University of Chicago)

15. Public corps of the Hungarian Academy of Sciences

I. Vince (since 6.12.2000)

## 9.2. MEMBERSHIP IN NATIONAL ASTRONOMICAL AND OTHER PROFESSIONAL SOCIETIES AND BODIES

1. Društvo astronoma Srbije (Society of astronomers of Serbia)  
M. Ćirković, Secretary and member of the Directorial Board  
I. Vince, member of the Directorial Board  
L. Č. Popović, member of the Directorial Board
2. Nacionalni komitet za astronomiju (National Committee for Astronomy)  
Z. Knežević, President  
M. S. Dimitrijević  
G. Djurašević  
I. Vince,
3. Astronomsko društvo "Rudjer Bošković" (Astronomical society "Rudjer Bošković")  
M.S. Dimitrijević, President  
M. Dačić, member of the Presidential Board  
Z.Knežević, member of the Presidential Board  
L.Č. Popović, member of the Presidential Board  
V. Protić - Benišek, member of the Presidential Board  
I. Vince, member of the Presidential Board
4. Serbian Society for Science fiction  
M. Ćirković - Secretary and Co-Founder

## 10. VISITING DIGNITARIES AND DISTINGUISHED GUESTS AT THE ASTRONOMICAL OBSERVATORY

31.05. - 4.06.2000.

M. S. De Biasi, La Plata Observatory and National University of Argentina, Facultad de Ciencias Astronomicas y Geofisicas (UNLP), Consejo Nacional de Investigaciones Cientificas y Tecnicas (CONICET), Argentina

23-26.06.2000

Guests of Belgrade Astronomical Observatory at the Second Serbian-Bulgarian Astronomical Meeting, Zaječar (Gamzigradska Banja)

Milcho K. Tsvetkov

Katya P. Tsvetkova

Georgi R. Ivanov

Ana P. Borisova

Vasil N. Popov

Konstantin Y. Stavrev

Liubomir H. Iliev

Jordan K. Asenov

Alexander P. Antov

Renada K. Konstantinova-Antova

Rumen S. Bachev

Rumen G. Bogdanovski

2-9.09.2000.

Dr Evencio Mediavilla, Instituto de Astrofisica de Canarias, La Laguna, Tenerife, Spain

20-28.11.2000.

Dr Gotthard Richter, Astrophysikalisches Institut Potsdam, Germany.

20-28.11.2000.

Dr Petra Böhm, Astrophysikalisches Institut Potsdam, Germany.

21-24.11.2000.

Rositsa Ivanova, Veliko Trnovo, Bulgaria

26.12.2000 - 16.01.2001

Irina Arturovna Egorova, Odessa Astronomical Observatory, Odessa, Ukraine

## 11. THE ATTENDANCE AT SCIENTIFIC CONFERENCES

1. 5th Humboldt Coll. Cel. Mech.: New Developments in the Dynamics of Planetary Systems, Bad Hofgastein (Austria), 19-25.3.2000.  
Zoran Knežević (Chairman of a session)
2. 10. Kongres fizičara Jugoslavije, (10th Congress of Physicists of Yugoslavia), Vrnjačka Banja 27-29.3.2000.  
E. Bon  
M. Dačić  
M. S. Dimitrijević  
N. Milovanović  
D. Tankosić
3. Republički seminar o nastavi fizike, (Republic Seminary on Physics Teaching), Vrnjačka Banja 28-30.3.2000.  
E. Bon  
M. Dačić  
M. S. Dimitrijević  
N. Milovanović  
D. Tankosić
4. The 77<sup>th</sup> RASNZ (Royal Astronomical Society of New Zealand) Annual Conference, Wellington, New Zealand, 20-22.05.2000.  
Lj. Skuljan
5. Joint European and National Astronomy Meeting JENAM-2000, 9th European and 5th Euro-Asian Astronomical Society Conference, 'European Astronomy at the Turn of the Millennium', Moscow, Russia, May 29 - June 3, 2000  
E. Bon  
M. S. Dimitrijević  
G. Djurašević  
N. Milovanović  
L. Č. Popović  
N. Stanić  
D. Tankosić
6. Colloquium 'Atomic and Molecular Data for Astrophysics' (Satellite meeting to Joint European and National Astronomy Meeting JENAM-2000, Moscow, Russia, 4-5 June 2000)  
M. S. Dimitrijević

7. Conference 2000 "Astrometry, Geodynamics and Celestial mechanics on the eve of XXI century", Sankt Petersburg, Russia, 19-24 June 2000

G. Damjanović

8. Second Serbian-Bulgarian Astronomical Meeting, Zaječar (Gamzigradska Banja), 23-26.06.2000.

E. Bon

Z. Cvetković

M. S. Dimitrijević (Chairman of a session)

S. Erkapić

N. Milovanović

S. Ninković

D. Olević

L. Č. Popović (Chairman of a session)

O. Vince

9. 15<sup>th</sup> International Conference on Spectral Line Shapes ICSLS XV, Berlin 10-14 July 2000.

M. S. Dimitrijević

L. Č. Popović

10. International Astronomical Union 24<sup>th</sup> General Assembly, Manchester 7-18 August 2000

G. Damjanović

M. S. Dimitrijević

D. Jevremović

V. Protić - Benišek

D. Tankosić

11. International Conference: Stellar Dynamics: From Classic to Modern, Sankt Petersburg 21-27 August 2000.

S. Ninković

12. 4th General Conference of the Balkan Physicists Union, Veliko Trnovo 22-27 August 2000.

V. Trajkovska

13. 20<sup>th</sup> Summer School and International Symposium on the Physics of Ionized Gases, 20<sup>th</sup> SPIG, Zlatibor 4-8 September 2000.

E. Bon

M. S. Dimitrijević (Chairman of a session)

D. Jevremović

S. Marković

N. Milovanović

L. Č. Popović

I. Vince

14. III Belarussian - Yugoslav Symposium on Physics and Diagnostics of Laboratory and Astrophysical Plasmas, Minsk 17-21 September 2000.

L. Č. Popović

N. Milovanović

15. Journées 2000 "Systèmes de Référence Spatio-Temporels", "J2000, a fundamental epoch for origins of reference systems and astronomical models", Paris Observatory, France, 18-20.09.2000.

G. Damjanović

16. Antika u Jugoslaviji - oblasti i recepcija (Antique in Yugoslavia - regions and reception), Belgrade, 23 September 2000

M. S. Dimitrijević

17. Balkan meeting of young astronomers, Belogradchik, 25-29 September 2000.

M. Dačić

M. S. Dimitrijević (Chairman of a session)

N. Milovanović

S. Ninković

D. Olević

L. Č. Popović

18. Workshop on plasma diagnostics and industrial applications of plasmas, The Abdus Salam International centre for theoretical physics, Trieste (Miramare), Italy, 12-13 October 2000

M. S. Dimitrijević

19. Prirodne i matematičke nauke u Srba 1850 - 1918 (Natural and mathematical sciences with Serbs 1850 - 1918), Novi Sad, 30-31 October 2000.

M. Dačić

M. S. Dimitrijević

M. Djokić

S. Ninković

D. Olević

V. Protić-Benišek

V. Trajkovska

20. School for young astronomers: Processing of astronomical images by MIDAS software, Research center Petnica, Valjevo, 21-24 November 2000.

E. Bon

N. Milovanović

L. Č. Popović

O. Vince

I. Vince

## 12. VISITS TO SCIENTIFIC INSTITUTIONS

1. 29.12.1999-6.01.2000

L'Institut d'Astrophysique Spatiale, Orsay, France

S. Jankov

2. 1.01-31.01 2000

University of Massachusetts, Amherst, USA

V. Živkov

3. 1.01-31.12.2000

Department of Physics and Astronomy, University of Canterbury, Christchurch,  
New Zealand.

Mt. John Observatory, New Zealand

Lj. Skuljan

4. 27.01-17.02.2000

Astrophysikalisches Institut Potsdam, Germany.

L. Č. Popović

5. 7.02. - 7.04.2000

Department of Astronomy, Eötvös Lorand University, Budapest, Hungary

I. Vince

6. 12.01-28.08.2000

Armagh Observatory, Armagh, Northern Ireland

D. Jevremović

7. 22-27.02.2000

Astronomical Observatory, Vienna, Austria.

M.S. Dimitrijević

8. 1.03-10.05.2000

Institute of Physics, Faculty of Sciences, Skopje, Macedonia

V. Trajkovska

9. 1.03-31.12 2000

University of Massachusetts, Amherst, USA

V. Živkov

10. 13.03-13.04.2000

Instituto de Astrofísica de Canarias, La Laguna, Tenerife, Spain

Teide Observatory, Tenerife, Spain

Roque de los Muchachos Observatory, La Palma, Canary Islands, Spain

L. Č. Popović

11. 1.04-31.12.2000

Onsala Space Observatory, Sweden

S. Nikolić

12. 10-22.04.2000

Aristotelos University of Salónica, Astronomical Observatory, Salónica, Greece  
Section of Astrophysics, Astronomy and Mechanics, Department of Physics, Uni-

versity of Athens, Athens, Greece

PMF (Faculty of Sciences), Skopje, Republic of Macedonia

M. S. Dimitrijević

13. 28.04-10.05.2000

Department of Physics and Astronomy, University of Georgia, Athens, Georgia,  
USA

D. Jevremović

14. 5-9.05.2000

Astronomical Observatory, Vienna, Austria.

M.S. Dimitrijević

15. 11.05-6.06.2000

Dipartimento di matematica, Università di Pisa, Italy

Z. Knežević

16. 28.05-7.06.2000

Astronomical Institute of the Russian Academy of Sciences, Moscow, Russia

M. S. Dimitrijević

L. Č. Popović

17. 19-30.06.2000

Department of Astronomy, Eötvös Lorand University, Budapest, Hungary

I. Vince

18. 30.06-10.07.2000

Astrophysikalisches Institut Potsdam, Germany.

L. Č. Popović

19. 12.07.2000

Astrophysikalisches Institut Potsdam, Germany.

M.S. Dimitrijević

L. Č. Popović

20. 12.07.2000

Astrophysikalische Observatoriums Potsdam, Germany.

M.S. Dimitrijević

L. Č. Popović

21. 10-14.08.2000

Rozhen Observatory (Bulgaria)

O. Vince

22. 1.10-15.12.2000

Armagh Observatory, Armagh, Northern Ireland

D. Jevremović

23. 15.08.-22.12.2000

University of Alabama, Huntsville, Alabama, USA

D. Tankosić

24. 28.08-19.10.2000

Institute of Physics, Faculty of Sciences, Skopje, Macedonia

V. Trajkovska

25. ??-10-15.12.2000

Armagh Observatory, Armagh, Northern Ireland

D. Jevremović

26. 16.10.2000

Astronomical Observatory, Vienna, Austria.

M.S. Dimitrijević

27. 31.10.-31.12.2000

Observatoire de Côte Azure, Grass, France

S. Jankov

28. 19.11-17.12.2000

Dipartimento di matematica, Universitá di Pisa, Italy

Z. Knežević

## 13. INTERNATIONAL SCIENTIFIC COLLABORATION

### ARGENTINA

Universidad Nacional de la Plata, Facultad de Ciencias Astronomicas y Geofisicas,  
La Plata (G.Damljanović)

Consejo Nacional de Ivestigaciones Cientificas y Técnicas (CONICET), Argentina  
(G.Damljanović)

### AUSTRALIA

Anglo - Australian Observatory, Epping (M. Ćirković)

### AUSTRIA

Astronomical Observatory, Vienna (M. S. Dimitrijević, L. Č. Popović)

### BELARUS

Institute of Molecular and Atomic Physics, Minsk (Agreement on collaboration signed 15. 09. 1995)

Scientific-Research Institute for Applied Physical Problems, of The Belarussian State University, Minsk (Agreement on collaboration signed 15. 09. 1995)

Astronomical Observatory of The Belarussian State University, Minsk (Agreement on collaboration signed 27. 12. 1995)

### BELGIUM

Observatoire Royale de Belgique, Uccles (V. Protić - Benišek)

### BRASIL

Instituto Astronomico e Geofisico - USP, Sao Paolo (S. Jankov)

### BULGARIA

Institute of Astronomy of the Bulgarian Academy of Sciences, Sofia (V. Protić - Benišek, M. S. Dimitrijević, L. Č. Popović, E. Bon)

**FINLAND**

Observatory, University of Helsinki, Helsinki (S. Nikolić)

**FRANCE**

Observatoire de Paris, Meudon (M. S. Dimitrijević)

**GERMANY**

Max-Planck Institute, Garching (M. M. Ćirković)

University of Bonn, Bonn (S. Nikolić)

**GREECE**

Astronomical Observatory, Aristotelos University of Thessaloniki, Thessaloniki (M. S. Dimitrijević)

Section of Astrophysics, Astronomy and Mechanics, Department of Physics, University of Athens, Athens (G. Djurašević, M. S. Dimitrijević)

**HUNGARY**

Department of Astronomy, Eötvös Lorand University, Budapest (S. Nikolić, I. Vince)

Konkoly Observatory, Budapest (I. Vince, S. Nikolić)

Astronomical Observatory, Szombathely (I. Vince)

Astronomical Observatory, Kiskunhalas (I. Vince)

Astronomical Observatory, Baja (I. Vince)

Astronomical Observatory, Szegedin (I. Vince)

**ITALY**

Dipartimento di matematica, Universita di Pisa, Pisa (The Common Project "Asteroids as a Key of Understanding the Origin of the Solar System", Bilateral Protocol between Yugoslav and Italian Governments, Z. Knežević in charge on Yugoslav and A. Milani on Italian Part

SISSA, Trieste, Italy (M. Ćirković)

**JAPAN**

ILOC - International Lunar Occultations Center, Tokio (V. Protić - Benišek)

**REPUBLIC OF MACEDONIA**

Institute of Physics, Faculty of Sciences, Skopje (V. Trajkovska)

**NEW ZEALAND**

Department of Physics and Astronomy, University of Canterbury, Christchurch, (Lj. Skuljan)

Mt. John Observatory (Lj. Skuljan)

Carter Observatory, Wellington (G. Djurašević)

**ROMANIA**

Astronomical Observatory, Bucharest (Agreement on collaboration with Astronomical Institute of the Romanian Academy of Sciences, signed on 12. 05. 1995)

Astronomical Observatory, Cluj - Napoca (Agreement on collaboration with Astronomical Institute of the Romanian Academy of Sciences, signed on 12. 05. 1995)

Astronomical Observatory, Timisoara (Agreement on collaboration with Astronomical Institute of the Romanian Academy of Sciences, signed on 12.05.1995)

**RUSSIA**

GAIŠ - Main Astronomical Institute "Šternberg", Moskwa (S. Ninković, G. Djurašević)

St. Petersburg State University, St. Petersburg (S.Ninković, M. Ćirković)

Institute of Theoretical Astronomy (ITA), St. Petersburg (V. Protić - Benišek, G. Popović)

Petrozavodsk State University, Petrozavodsk (S.Ninković)

Pulkovo Astronomical Observatory, Pulkovo, St.Petersburg (I. Pakvor, V.Protić - Benišek, G. Popović)

Pulkovo Astronomical Observatory - Kislovodsk Solar Station, Pulkovo - Kislovodsk, St.Petersburg (Agreement on colaboration signed early in 1996)

Institute of Applied Physics of the Russian Academy of Sciences, Nizhnij Novgorod (Agreement on colaboration signed early in 1996)

Department of Optics and Spectroscopy, Kazan State University, Kazan, Tatarstan (Agreement on collaboration, signed on 18.08.1995)

Department of Astronomy, Kazan State University, Kazan, Tatarstan (Agreement on collaboration, signed on 18.08.1995)

Engelkhart Astronomical Observatory, Kazan, Tatarstan (Agreement on collaboration, signed on 18.08.1995)

## SLOVAKIA

Astronomical Institute of the Slovak Academy of Sciences, Tatranska Lomnica (G. Djurašević)

## SPAIN

Catalonian Polytechnical University, Barcelona (S. Ninković)

Astrophysical Institute of Andalusia, Granada (S. Ninković)

Instituto de Astrofísica de Canarias, La Laguna, Tenerife (L. Č. Popović, E. Bon)

## SWEDEN

Onsala Space Observatory (S. Nikolić)

## TURKEY

Ankara University Observatory (G. Djurašević)

## UKRAINE

Astronomical Observatory of Odessa State University "I.I. Mechnikov", Odessa (Agreement on collaboration, signed on 27.11.1995)

Crimean Astrophysical Observatory, Nauchny, Crimea (Agreement on collaboration, signed on 24.11.1995)

Mykolayiv Observatory, Mykolayiv (I. Pakvor, G. Damljanović)

## UNITED KINGDOM

Armagh Observatory, Armagh, Northern Ireland (D. Jevremović)

Queen's University, Belfast, Northern Ireland (D. Jevremović)

## USA

University of Alabama, Huntsvil, Alabama, USA (D. Tankosić)

Department of Physics and Astronomy, University of Georgia, Athens, Georgia, USA (D. Jevremović)

University of Massachusetts, Amherst, USA (V. Živkov)

State University of New York, Stony Brook, New York, USA (M. Ćirković)

## UZBEKISTAN

Majdanak Observatory, Majdanak, Uzbekistan (G. Djurašević)

## 14. TEACHING ACTIVITY

### 14.1. LECTURING ON THE UNIVERSITY LEVEL

1. M. Dačić  
GEODESIC ASTRONOMY  
Military Technical Academy  
(lectures) 5th year
2. M.S. Dimitrijević  
ASTRONOMICAL SPECTROSCOPY  
Department of Astronomy, Mathematical Faculty  
Postgraduate studies 2nd year
3. M.S. Dimitrijević  
INFLUENCE OF COLLISIONS WITH CHARGED AND NEUTRAL PARTICLES ON STELLAR SPECTRA  
Department of Astronomy, Mathematical Faculty  
Postgraduate studies 2nd year
4. G. Djurašević  
NAVAL METEOROLOGY AND OCEANOGRAPHY  
Naval Faculty, Kotor  
2nd year
5. Z. Knežević  
METHODS OF CELESTIAL MECHANICS  
Department of Astronomy, Mathematical Faculty  
Postgraduate studies 2nd year
6. S. Ninković  
STELLAR SYSTEMS II  
Department of Astronomy, Mathematical Faculty  
Postgraduate studies 1st year
7. S. Ninković  
SPECIAL COURSE ON ORBITS OF STARS IN STELLAR SYSTEMS  
Department of Astronomy, Mathematical Faculty  
Postgraduate studies 2nd year
8. S. Ninković  
GALACTIC ASTRONOMY  
Department of Astronomy, Mathematical Faculty  
Postgraduate studies 2nd year
9. L. Č. Popović  
SELECTED CHAPTERS OF EXTRAGALACTIC ASTRONOMY

Postgraduate studies 2nd year

10. I. Vince

PRACTICAL ASTROPHYSICS

Department of Astronomy, Mathematical Faculty  
(lectures and exercises) 3rd year.

11. I. Vince

METHODS AND TECHNIQUE OF OBSERVATIONS OF THE SUN

Department of Astronomy, Mathematical Faculty  
Postgraduate studies 2nd year

12. I. Vince

PRACTICAL ASTRONOMICAL SPECTROSCOPY

Department of Astronomy, Eötvös Lorand University, Budapest, Hungary  
3rd, 4th and 5th year and Doctoral Studies

13. I. Vince

SOLAR PHYSICS

Department of Astronomy, Mathematical Faculty  
Postgraduate studies, 2nd year

#### 14.2. Ph. D. AND M. Sc. THESES

1. Mirko G. Nagl

DISK I HALO MLEČNOG PUTA NA OSNOVU ANALIZE METALIČNOSTI I  
PROSTORNE RASPODELE ZVEZDANIH JATA  
(DISC AND HALO OF THE MILKY WAY ON THE BASIS OF THE ANALYSIS  
OF STELLAR CLUSTER METALICITY AND SPACIOUS DISTRIBUTION)  
M. Sc. Thesis, Belgrade University, Faculty of Mathematics, 21.04.2000  
(Slobodan Ninković, Co-Mentor)

2. Nataša Vranešević

KINEMATIKA MLEČNOG PUTA U SUNČEVOJ OKOLINI NA OSNOVU A-  
NALIZE MODULA HELIOCENTRIČNIH BRZINA  
(MILKY WAY KINEMATICS IN THE SOLAR NEIGHBORHOOD ON THE BA-  
SIS OF THE HELIOCENTRIC VELOCITIES MODULE ANALYSIS)  
M. Sc. Thesis, Belgrade University, Faculty of Mathematics 24.11.2000  
(Slobodan Ninković Co-Mentor)

## 15. MISCELLANEOUS

### 15.1. PRIZES FOR POETRY

1. Nataša Stanić  
XXII PESNIČKE STAZE  
Kikinda, 4.09.2000  
Druga nagrada za pesmu "NEOPISANI RAZLOG"  
22nd POETS PATHS  
Second prize for the poem "NONDESCRIBED REASON"

### 15.2. OTHER

1. 13.05.2000.  
Milan M. Ćirković  
On-line interview to "Astronomski magazinu" (Astronomical Magazin) Novi Sad, on chat-channel of saite <http://juam.tripod.com>.
2. 27.10.2000  
Promotion of the Belgrade Astronomical Observatory publishing activity on the 45 Belgrade Book Fair  
M. S. Dimitrijević  
L. Č. Popović  
M. Dačić
3. 6.12.2000  
Milan M. Ćirković  
Participation in the tribune of Serbian Society for Science fiction and the journal "Galaksija" (Galaxy): "Kako poslati prvog Jugoslovena u svemir?" (How to send the first Yugoslav into space?), held in "Dom omladine" (Hous of youth).
4. M. M. Ćirković is the member of CASE artistic project – a multidisciplinary project primarily for painting - architecture - literature, with the headquaters in Belgrade but with extensive international collaboration.

5. I. Vince prepared during his stay at the Department for Astronomy of the University of Budapest, detailed list of lectures on PRACTICAL ASTRONOMICAL SPECTROSCOPY - OPTICAL PART, which forms a part of the Department proposal to the University, to introduce this course in undergraduate studies.
6. During 2000 Ištvan Vince prepared 40 expertises for courts.

## 16. BELGRADE ASTRONOMICAL OBSERVATORY STAFF AND ORGANISATION

### WINNERS OF THE ASTRONOMICAL OBSERVATORY PRIZE FOR 2000

1. Prize for Science  
**STEVAN DJENIŽE**
1. Prize for Science for Young  
**VLADIMIR MILOSAVLJEVIĆ**
3. Prize for the Contribution to the Development of the Astronomical Observatory (for  
fellows of Astronomical Observatory)  
**SOFIJA SADŽAKOV**
4. Prize for the Contribution to the Development of the Astronomical Observatory  
**ŠKOLSKA REDAKCIJA OBRAZOVNO NAUČNOG PROGRAMA RADIO TELEVIZIJE BEOGRAD (SCHOOL EDITORIAL BOARD FOR THE EDUCATIONAL SCIENTIFIC PROGRAM OF THE RADIO AND TELEVISION BELGRADE)**

### DIRECTOR

Milan S. Dimitrijević

### DIRECTORIAL BOARD

Dragan Popović -President  
Luka Popović - Vice President  
Zoran Bojanić  
Miroljub Ignjatović  
Slobodan Jankov  
Nebojša Petrović  
Georgije Popović  
Ištvan Vince

### JOINT SCIENTIFIC COUNCIL OF ASTRONOMICAL OBSERVATORY, GEO-MAGNETIC INSTITUTE AND SEISMOLOGICAL INSTITUTE

Milan S. Dimitrijević - President  
Slobodan Ninković - Vice President  
Olga Atanacković - Vukmanović

Ljiljana Cander  
Stevan Djeniže  
Aleksandar Djordjević  
Gojko Djurašević  
Davorka Grubor  
Slobodan Jankov  
Zoran Knežević  
Aleksandar Kubičela  
Anatolij A. Mihajlov  
Georgije Popović  
Sofija Sadžakov  
Božidar Stanić  
Desanka Šulić  
Ištvan Vince

#### SCIENTIFIC COUNCIL OF ASTRONOMICAL OBSERVATORY

Ištvan Vince - President  
Gojko Djurašević - Vice President  
Milan S. Dimitrijević  
Slobodan Jankov  
Zoran Knežević  
Slobodan Ninković  
Georgije Popović  
Luka Č. Popović

#### STAFF AND ORGANISATION OF ASTRONOMICAL OBSERVATORY IN 2000

Dr Milan S. Dimitrijević (Director)

#### SCIENTIFIC DIVISION

##### DEPARTMENT FOR ASTROPHYSICS

Dr Ištvan Vince (Head of department)  
Dr Milan Ćirković (Ph. D since 22.06.2000)  
Dr Milan S. Dimitrijević  
Dr Gojko Djurašević  
Dr Slobodan Jankov  
Dr Darko Jevremović  
Dr Luka Č. Popović  
M.Sc. Sanja Erkapić  
M.Sc. Silvana Nikolić  
M.Sc. Ljiljana Skuljan  
M.Sc Dragana Tankosić  
Edi Bon

Snežana Marković-Kršljanin

Nenad Milovanović

Nataša Stanić

Oliver Vince

#### DEPARTMENT FOR DYNAMICAL ASTRONOMY

Dr Georgije Popović (Head of Department)

Dr Zoran Knežević

Dr Slobodan Ninković

M.Sc. Dragomir Olević

M.Sc. Rade Pavlović

M.Sc. Vojislava Protić - Benišek

Veselka Trajkovska (up to 10.05.2000)

Vesna Živkov

#### DEPARTMENT FOR ASTROMETRY

Dr Miodrag Dačić (Head of Department)

M.Sc. Predrag Jovanović

M.Sc. Ivan Pakvor

M.Sc. Zorica Cvetković

M.Sc. Nataša Vranešević (up to 8.07.2000 Popović, M.Sc since 24.11.2000)

#### LIBRARY

Vesna Mijatović (librarian)

Milan Radovanac (archivist)

#### PROFESSIONAL SERVICES DIVISION

##### TIME KEEPING AND GEOGRAPHIC COORDINATES DETERMINATION SERVICE

M.Sc Goran Damjanović (Head of the Service)

M.Sc Bora Jovanović

Djuro Božičković

Veselka Trajkovska (since 11.05.2000)

#### GENERAL AND PERSONAL SERVICES DIVISION

##### GENERAL AND PERSONAL SERVICE

Sreten Stepanović (Secretary – Head of the Service)

Gordana Gajić (Technical secretary)

Stajka Novaković (telephonist)  
Jelena Pešić (maintenance)

ACCOUNT - KEEPING SERVICE

Slavica Pavić (Head of Service)  
Gordana Dakić (bookkeeper – accountant)

TECHNICAL SERVICE

Vladimir Savković (electrotechnician)

ПУБЛИКАЦИЈЕ АСТРОНОМСКЕ ОПСЕРВATORИЈЕ У БЕОГРАДУ  
PUBLICATIONS OF THE ASTRONOMICAL OBSERVATORY OF BELGRADE

---

No. 1 (1947)

ЕФЕМЕРИДЕ 98 МАЛИХ ПЛАНЕТА ЗА 1947 ГОДИНУ;  
ÉPHÉMÉRIDES DE 98 DES PETITES PLANÈTES POUR L'AN 1947

No. 2 (1947)

ЕФЕМЕРИДЕ 106 МАЛИХ ПЛАНЕТА ЗА 1948 ГОДИНУ;  
ÉPHÉMÉRIDES DE 106 DES PETITES PLANÈTES POUR L'AN 1948

No. 3 (1949)

ЕФЕМЕРИДЕ 106 МАЛИХ ПЛАНЕТА ЗА 1949 ГОДИНУ;  
ÉPHÉMÉRIDES DE 106 DES PETITES PLANÈTES POUR L'AN 1949

No. 4 (1951) P. M. Djurković, B. M. Ševarlić et Z. M. Brkić,  
ОДРЕЂИВАЊЕ ГЕОГРАФСКЕ ШИРИНЕ АСТРОНОМСКЕ ОПСЕРВATORИЈЕ У БЕОГРАДУ, 1947;  
DETERMINATION DE LATITUDE DE L'OBSERVATOIRE ASTRONOMIQUE DE BELGRADE, 1947

No. 5 (1957) B. M. Ševarlić,

SUR LE PROBLÈME DE LA VARIATION DES LATITUDES ET DU MOUVEMENT DU PÔLE INSTANTANÉ DE ROTATION À LA SURFACE DE LA TERRE

No. 6 (1961) Ljubiša A. Mitić,

COOSCILLATIONS DES PENDULES ASTRONOMIQUES

No. 7 (1961) Zaharije M. Brkić

ПРИЛОГ ИСПИТИВАЊИМА СИСТЕМАЦКИХ УТИЦАЈА НА АСТРОНОМСКО ОДРЕЂИВАЊЕ ВРЕМЕНА;  
CONTRIBUTION AUX ÉTUDES DES INFLUENCES SYSTÉMATIQUES À LA DÉTERMINATION ASTRONOMIQUE DE L'HEURE

No. 8 (1961) B. M. Ševarlić,

ПРОМЕНЕ ГЕОГРАФСКЕ ШИРИНЕ АСТРОНОМСКЕ ОПСЕРВATORИЈЕ У БЕОГРАДУ ОД 1949.0 – 1957.0;  
VARIATIONS DE LA LATITUDE DE L'OBSERVATOIRE ASTRONOMIQUE DE BEOGRAD DE 1949.0 – 1957.0

No. 9 (1961) Branislav M. Ševarlić,

PRILOG ISPITIVANJU PROMENA GEOGRAFSKIH ŠIRINA BEOGRADA;  
CONTRIBUTION A L'ETUDE DES VARIATIONS DE LA LATITUDE DE BEOGRAD

No. 10 (1964) Vasilije Oskanjan,  
THE UV CETI VARIABLE STARS

No. 11 (1965) P. M. Djurković, M. Protić, J. Arsenijević, A. Kubičela, O. Kovačević, R. Grujić, Lj. Dačić, M. Djokić, Č. Čepinac,  
OBSERVATIONS DU SOLEIL EN 1957, 1958 ET 1959 A L'OBSERVATOIRE ASTRONOMIQUE DE BEOGRAD

No. 12 (1968) Editor : P. M. Djurković,

SIMPOZIJUM ASTRONOMA JUGOSLAVIJE POVODOM 75. GODIŠNICE OSNIVANJA ASTRONOMSKE OPSERVATORIJE U BEOGRADU (1887 – 1962)

No. 13 (1967) G. Teleki,

A CONTRIBUTION INTO THE RESEARCH OF ASTRONOMICAL REFRACTION AND ITS ANOMALIES ON THE BASIS OF AEROLOGICAL MEASUREMENTS CARRIED OUT IN BEOGRAD

No. 14 (1968)

RADOVI NA ISPITIVANJU FUNDAMENTALNIH ASTROMETRIJSKIH INSTRUMENATA, NJIHOVIH ORGANA I PRIBORA;  
TRAVAUX SUR L'EXAMEN DES INSTRUMENTS ASTROMETRIQUES FONDAMENTAUX, DE LEUR ORGANES ET ACCESSOIRES

No. 15 (1968) Aleksandar Kubičela

UNE MODIFICATION DU SPECTROGRAPHE CHROMOSPHERIQUE A PLAQUE MOBILE

No. 16 (1969) Editor : P. M. Djurković,

RADOVI PRIKAZANI NA IV KONGRESU MATEMATIČARA, FIZIČARA I ASTRONOMA, OKTOBRA 1965 U SARAJEVU

No. 17 (1972) Sofija N. Sadžakov, Dušan P. Šaletić,

CATALOGUE OF DECLINATIONS OF THE LATITUDE PROGRAMME STARS (KŠZ)

No. 18 (1974) Editor : G. Teleki,

THE PRESENT STATE AND FUTURE OF THE ASTRONOMICAL REFRACTION INVESTIGATIONS,

Proceedings of the Study Group on Astronomical Refraction of the International Astronomical Union Commission 8

No. 19 (1974) Georgije M. Popović,

THE FIRST GENERAL CATALOGUE OF DOUBLE-STAR OBSERVATIONS MADE IN BELGRADE, 1951–1971

No. 20 (1975) Editor : Dj. Teleki,

ZBORNIK RADOVA NACIONALNE KONFERENCIJE JUGOSLOVENSKIH ASTRONOMA – 1973, BEOGRAD;

PROCEEDINGS OF THE NATIONAL CONFERENCE OF YUGOSLAV ASTRONOMERS – 1973, BELGRADE

No. 21 (1975) S. Sadžakov, D. Šaletić,

DECLINATIONS AND THE PROPER MOTIONS OF THE STARS OF THE INTERNATIONAL LATITUDE SERVICE ON THE BASIS OF MERIDIAN CATALOGUES FROM 1929 TO 1972.

No. 22 (1975) Ivan Pakvor,

ISPITIVANJE NAGLAVAKA VELIKOG PASAŽNOG INSTRUMENTA ASTRONOMSKE OPSERVATORIJE U BEOGRADU;

PIVOT-EXAMINATIONS OF BELGRADE OBSERVATORY'S LARGE TRANSIT INSTRUMENT

No. 23 (1975) Lj. A. Mitić,

PRIPREMNI RADOVI NA VELIKOM PASAŽNOM INSTRUMENTU BEOGRADSKE OPSERVATORIJE;

PREPARATION OF THE LARGE TRANSIT INSTRUMENT OF THE BELGRADE OBSERVATORY FOR REGULAR OBSERVATION

No. 24 (1978) Sofija N. Sadžakov,

IZVEDENI KATALOG ŠIRINSKIH ZVEZDA (IKŠZ);

GENERAL CATALOGUE OF LATITUDE STARS (IKŠZ)

No. 25 (1978) Danilo J. Zulević,

PRILOG STATISTIČKOM ISPITIVANJU UTICAJA ODNOSA MASA KOMPONENTA NA DINAMIČKE PUTANSKE ELEMENTE ( $e$ ,  $P$ ,  $a$ ) KOD VIZUELNO DVOJNIH ZVEZDA;

STATISTICAL INVESTIGATION OF THE RELATION BETWEEN THE MASS RATIO AND THE DYNAMICAL ORBITAL ELEMENTS  $e$ ,  $P$ ,  $a$  OF THE VISUAL BINARIES

No. 26 (1979) Editor : Dj. Teleki,  
ZBORNIK RADOVA III NACIONALNE KONFERENCIJE JUGOSLOVENSKIH ASTRONOMA, BEOGRAD, 1977.;  
PROCEEDINGS OF THE III NATIONAL CONFERENCE OF YUGOSLAV ASTRONOMERS, BELGRADE, 1977.

No. 27 (1979) S. N. Sadžakov,  
ISPITIVANJE SISTEMATSKIH GREŠAKA TIPA  $\Delta\delta_\alpha$  ŠIRINSKIH POSMATRANJA RAZNIH OPSERVATORIJA NA OSNOVU NJIHOVOG UPOREDJIVANJA SA BEOGRADSKIM IZVEDENIM KATALOGOM ŠIRINSKIH ZVEZDA I FOTOGRAFSKIM KATALOGOM AGK3;  
INVESTIGATION OF THE SYSTEMATIC  $\Delta\delta_\alpha$  - TYPE ERRORS IN LATITUDE OBSERVATIONS OF VARIOUS OBSERVATORIES BY THEIR COMPARISON WITH BELGRADE GENERAL CATALOGUE OF LATITUDE STARS AND THE PHOTOGRAPHIC CATALOGUE AGK3

No. 28 (1980) Jelisaveta Arsenijević,  
POLARIZACIJA ZRAČENJA NEKIH HLADNIH SUPERDŽINOVA

No. 29 (1982) Editors : G. Teleki, B. Ševarlić,  
EPITOME FUNDAMENTORUM ASTRONOMIAE, Pars II,  
Photographic Catalogues and Charts of Star Positions

No. 30 (1981) S. N. Sadžakov, D. P. Šaletić, M. D. Dačić,  
KATALOG ZVEZDA PROGRAMA SFZT;  
CATALOGUE OF NPZT PROGRAMME STARS

No. 31 (1981)  
ASTROKLIMATSKA ISTRAŽIVANJA ZA IZBOR MESTA VISINSKE STANICE ASTRONOMSKE OPSERVATORIJE U BEOGRADU;  
ASTROCLIMATIC EXPLORATIONS FOR SITE SELECTION OF THE HIGH ALTITUDE STATION OF THE BELGRADE OBSERVATORY

No. 32 (1984) Vojislava Protić-Benišek,  
MERKUROVI PROLAZI I PARALAKSA SUNCA;  
TRANSITS OF MERCURY AND SOLAR PARALLAX

No. 33 (1985) Editor : G. M. Popović,  
ZBORNIK RADOVA VI NACIONALNE KONFERENCIJE JUGOSLOVENSKIH ASTRONOMA, HVAR, 1983.;  
PROCEEDINGS OF THE VI NATIONAL CONFERENCE OF YUGOSLAV ASTRONOMERS, HVAR, 1983

No. 34 (1986) Božidar Popović,  
EQUATIONS DES PERTURBATIONS DES ELEMENTS HELIOCENTRIQUES VECTORIELS DES ORBITES DES PETITES PLANÈTES ET COMÈTES

No. 35 (1987) Editor : G. Teleki,  
PROCEEDINGS OF THE WORKSHOP ON REFRACTION DETERMINATION IN THE OPTICAL AND RADIO ASTROMETRY, LENINGRAD, USSR, 1985

No. 36 (1989)  
STO GODINA ASTRONOMSKE OPSERVATORIJE U BEOGRADU

No. 37 (1989) Vladimir Kršljanin,  
ŠTARKOV POMAK JONSKIH LINIJA KOD TOPLIH ZVEZDA;  
ION LINES STARK SHIFTS IN SPECTRA OF HOT STARS

No. 38 (1990) S. N. Sadžakov, M. D. Dačić,  
BEOGRADSKI KATALOG DVOJNIH ZVEZDA;  
BELGRADE CATALOGUE OF DOUBLE STARS

No. 39 (1990) Milan S. Dimitrijević,  
ISTRAŽIVANJA OBLIKA SPEKTRALNIH LINIJA U JUGOSLAVIJI 1962 – 1985,  
(Bibliografija i indeks citata);  
LINE SHAPES INVESTIGATIONS IN YUGOSLAVIA 1962 – 1985,  
(Bibliography and citation index)

No. 40 (1990) Editors : G. Teleki and B. Ševarlić,  
EPITOME FUNDAMENTORUM ASTRONOMIAE, Pars III,  
Parallaxes, Proper Motions and Radial Velocities

No. 41 (1991) Milan S. Dimitrijević,  
ISTRAŽIVANJE OBLIKA SPEKTRALNIH LINIJA U JUGOSLAVIJI II (1985 – 1989),  
(Bibliografija i indeks citata);  
LINE SHAPES INVESTIGATIONS IN YUGOSLAVIA II (1985 – 1989),  
(Bibliography and Citation Index)

No. 42 (1991) Gojko Djurašević,  
ISPITIVANJE AKTIVNIH TESNIH DVOJNIH SISTEMA NA OSNOVU FOTOMETRIJSKIH MERENJA;  
INVESTIGATION OF ACTIVE CLOSE BINARIES BASED ON PHOTOMETRIC MEASUREMENTS

No. 43 (1992) Editors : O. Atanacković-Vukmanović and M. S. Dimitrijević,  
Astronomski opsevatorija u Beogradu,  
AKTIVNOSTI I KRATKI SADRZAJI RADOVA 1980 – 1990;  
Astronomical Observatory in Belgrade,  
ACTIVITIES AND ABSTRACTS OF PAPERS 1980 – 1990

No. 44 (1993) Editors : M. S. Dimitrijević and D. Djurović,  
ZBORNIK RADOVA X NACIONALNE KONFERENCIJE JUGOSLOVENSKIH ASTRO-NOMA, 22 – 24 SEPTEMBER 1993;  
PROCEEDINGS OF THE X NATIONAL CONFERENCE OF YUGOSLAV ASTRONOMERS, BELGRADE, SEPTEMBER 22 – 24, 1993

No. 45 (1993) B. Jovanović, L. Djurović, M. Jovanović,  
HOMOGENIZOVANI SISTEM UT<sub>BLI</sub> ZA PERIOD 1964 – 1986;  
HOMOGENEOUS SYSTEM UT<sub>BLI</sub> FOR 1964 – 1986

No. 46 (1994) Luka Č. Popović,  
ŠTARKOVO ŠIRENJE SPEKTRALNIH LINIJA TEŠKIH JONA U SPEKTRIMA TOPLIH ZVEZDA;  
STARK BROADENING OF HEAVY ION SPECTRAL LINES IN SPECTRA OF HOT STARS

No. 47 (1994) Milan S. Dimitrijević,  
ISTRAŽIVANJE OBLIKA SPEKTRALNIH LINIJA U JUGOSLAVIJI I SRBIJI III (1989 – 1993),  
(Bibliografija i indeks citata);  
LINE SHAPES INVESTIGATIONS IN YUGOSLAVIA AND SERBIA III (1989 – 1993),  
(Bibliography and citation index)

No. 48 (1995) Editors : O. Atanacković-Vukmanović and M. S. Dimitrijević,  
ISTRAŽIVANJA U ASTRONOMIJI I;  
RESEARCHES IN ASTRONOMY I

No. 49 (1995) Editors : I. Vince, M. S. Dimitrijević and L. Balázs,  
PROCEEDINGS OF THE FIRST HUNGARIAN-YUGOSLAV ASTRONOMICAL CONFERENCE,  
April 26–27, 1995, Baja Hungary

No. 50 (1995) Editors : M. S. Dimitrijević and L. Č. Popović,  
PROCEEDINGS OF THE FIRST YUGOSLAV CONFERENCE ON SPECTRAL LINE  
SHAPES,  
September 11–14, 1995, Krivaja, Yugoslavia

No. 51 (1996) Editors : M. S. Dimitrijević and L. Č. Popović,  
Астрономска Опсерваторија у Београду,  
АКТИВНОСТИ И КРАТКИ САДРЖАЈИ РАДОВА (1991 – 1995);  
Astronomical Observatory in Belgrade,  
ACTIVITIES AND ABSTRACTS OF PAPERS (1991 – 1995)

No. 52 (1996) Milan S. Dimitrijević,  
БЕОГРАДСКА АСТРОНОМСКА ОПСЕРВАТОРИЈА У 1995;  
BELGRADE ASTRONOMICAL OBSERVATORY IN 1995

No. 53 (1996) Editors : V. S. Burakov and M. S. Dimitrijević,  
PROCEEDINGS OF THE FIRST BELARUSSIAN-YUGOSLAVIAN SYMPOSIUM ON  
PHYSICS AND DIAGNOSTICS OF LABORATORY & ASTROPHYSICAL PLASMA,  
July 1 – 3, 1996, Minsk, Belarus,  
In memoriam of M. A. Elyashevich, academician of Belarus AS

No. 54 (1996) Editors : M. Vukićević-Karabin and Z. Knežević,  
ЗБОРНИК РАДОВА XI НАЦИОНАЛНЕ КОНФЕРЕНЦИЈЕ ЈУГОСЛОВЕНСКИХ  
АСТРОНОМА,  
Београд, 9 – 11, октобар 1996;  
PROCEEDINGS OF THE XI NATIONAL CONFERENCE OF YUGOSLAV ASTRONOMERS,  
Belgrade, October 9 – 11, 1996

No. 55 (1997) Milan S. Dimitrijević,  
БЕОГРАДСКА АСТРОНОМСКА ОПСЕРВАТОРИЈА У 1996;  
BELGRADE ASTRONOMICAL OBSERVATORY IN 1996

No. 56 (1997) Editors : M. S. Dimitrijević, J. Milogradov-Turin and L. Č. Popović,  
РАЗВОЈ АСТРОНОМИЈЕ КОД СРБА;  
DEVELOPMENT OF ASTRONOMY AMONG SERBS

No. 57 (1997) Editors : Luka Č. Popović and Milivoje Ćuk,  
PROCEEDINGS OF THE SECOND YUGOSLAV CONFERENCE ON SPECTRAL LINE  
SHAPES,  
September 29 – October 2, 1997, Bela Crkva, Yugoslavia

No. 58 (1997) Milan S. Dimitrijević,  
LINE SHAPES INVESTIGATIONS IN YUGOSLAVIA AND SERBIA IV (1993 – 1997),  
(Bibliography and citation index);  
ISTRAŽIVANJE OBLIKA SPEKTRALNIH LINIJA U JUGOSLAVIJI I SRBIJI IV,  
(1993 – 1997) (Bibliografija i indeks citata)

No. 59 (1998) Milan S. Dimitrijević,  
БЕОГРАДСКА АСТРОНОМСКА ОПСЕРВАТОРИЈА У 1997;  
BELGRADE ASTRONOMICAL OBSERVATORY IN 1997

No. 60 (1998) Editors : M. S. Dimitrijević and L. Č. Popović,  
PROCEEDINGS OF THE 4<sup>th</sup> YUGOSLAV-ROMANIAN ASTRONOMICAL MEETING,  
(4<sup>th</sup> YuRoAM)

No. 61 (1998) Editors : M. S. Dimitrijević and V. S. Burakov,  
PROCEEDINGS OF THE 2<sup>nd</sup> YUGOSLAV - BELARUSSIAN SYMPOSIUM ON PHYSICS & DIAGNOSTICS OF LABORATORY & ASTROPHYSICAL PLASMAS,  
September 5-6, 1998, Zlatibor, Yugoslavia

No. 62 (1998) M. S. Dimitrijević,  
АСТРОНОМСКА СПЕКТРОСКОПИЈА;  
ASTRONOMICAL SPECTROSCOPY

No. 63 (1999) Milan S. Dimitrijević,  
БЕОГРАДСКА АСТРОНОМСКА ОПСЕРВАТОРИЈА У 1998;  
BELGRADE ASTRONOMICAL OBSERVATORY IN 1998

No. 64 (1999) Editors : Milan S. Dimitrijević, Luka Č. Popović and Milcho Tsvetkov.  
PROCEEDINGS OF THE FIRST BULGARIAN-YUGOSLAV ASTRONOMICAL MEETING

No. 65 (1999) Editors : Luka Č. Popović and Miodrag Dačić,  
ЗВОРНИК РАДОВА XII НАЦИОНАЛНЕ КОНФЕРЕНЦИЈЕ ЈУГОСЛОВЕНСКИХ АСТРОНОМА И МЕЂУНАРОДНОГ СКУПА О РАЗВОЈУ АСТРОНОМСКИХ БАЗА ПОДАТАКА;  
PROCEEDINGS OF THE XII NATIONAL CONFERENCE OF YUGOSLAV ASTRONOMERS AND INTERNATIONAL WORKSHOP ON THE DEVELOPMENT OF ASTRONOMICAL DATABASES

No. 66 (1999) Editors : M. S. Dimitrijević, J. Purić and V. S. Burakov,  
INVITED LECTURES OF THE 2<sup>nd</sup> YUGOSLAV - BELARUSSIAN SYMPOSIUM ON PHYSICS & DIAGNOSTICS OF LABORATORY & ASTROPHYSICAL PLASMAS,  
September 5-6, 1998, Zlatibor, Yugoslavia

No. 67 (2000) Editors : Milan S. Dimitrijević, Luka Č. Popović and Milcho Tsvetkov,  
ЗВОРНИК РАДОВА ДРУГОГ СРПСКО - БУГАРСКОГ АСТРОНОМСКОГ СУСПЕТА,  
Јун 23-26, Зајечар, Србија;  
PROCEEDINGS OF THE SECOND SERBIAN - BULGARIAN ASTRONOMICAL MEETING,  
Jun 23-26, Zaječar, Srbija

No. 68 (2000) Editors : V. S. Burakov and M. S. Dimitrijević,  
III BELARUSSIAN - YUGOSLAV SYMPOSIUM ON PHYSICS AND DIAGNOSTICS OF LABORATORY AND ASTROPHYSICAL PLASMAS,  
September 17-21, 2000, Minsk, Belarus

No. 69 (2000) Milan S. Dimitrijević,  
БЕОГРАДСКА АСТРОНОМСКА ОПСЕРВАТОРИЈА У 1999;  
BELGRADE ASTRONOMICAL OBSERVATORY IN 1999

No. 70 (2001) Milan S. Dimitrijević,  
БЕОГРАДСКА АСТРОНОМСКА ОПСЕРВАТОРИЈА У 2000;  
BELGRADE ASTRONOMICAL OBSERVATORY IN 2000
