

17:30 - 18:00 Contributed talk 6

Milan S. Dimitrijević, Vladimir A. Srećković and Ljubinko M. Ignjatović: Chemi-ionization/recombination processes in the AGNs Broad-Line Region

20:00 Conference dinner

Wednesday (April 18, 2018)

Chair: Dragana Ilić

Session 4. AGN variability, structure and spectral characteristics - observations vs. theory

10:00 – 10:45 Review lecture 9

Yan-Rong Li: Test Periodic Signals in Red-Noise Time Series of Active Galactic Nuclei

10:45 - 11:30 Review lecture 10

Andjelka Kovačević: Oscillatory patterns in the light curves of five long-term monitored type 1 active galactic nuclei

Chairs: Jian-Min Wang & Luka Č. Popović

Open discussion: possibility future collaboration (with coffee and cakes) in observations and theoretical work - Closing conclusions

12:30 - Lunch

14:00 Excursion to Museum Vinča
