

DEPARTMENT OF ASTRONOMY 1999-2018

This paper represents an attempt to cover chronologically, in as much detail as possible, the development of the Department of Astronomy, Faculty of Mathematics, University of Belgrade, in the period 1999-2018, and, in this way, to produce a sequel to some earlier papers that covered the history of Astronomy group at the University of Belgrade in the periods before 1947, from 1947 to 1977, and from 1978 to 1998 (Simovljević 1980, Simovljević & Milogradov-Turin 1998). Aware that many activities at the Department of Astronomy in the last twenty years did not find its place in the paper, due to the limited space, we still hope that this text will find its place in the history of Serbian astronomy and serve as a valuable historical source to the future generations of astronomers.

Key words: History of Astronomy, Sociology of Astronomy
