

ZORAN IVANOVIĆ THE CONNOISSEUR OF THE STARS

This paper presents a short biography of Zoran Ivanović and the mystery and harmony of his lines and colours into which the soul and body of his artistic expression has been integrated. His works are on the borderline between reality and dreams, the earthly and transcendental aspects, representing the mirror of the world, and the primordial, creating the rhythm of cyclical movement, and merging two antipodes, thus giving us a pure and genuine unified picture.
