

## **ASTRONOMICAL STATION ON VIDOJEVICA**

The initiative to build an Astronomical station on the mountain Vidojevica started in 2001. Its building started in 2004 and the finishment of works is expected during 2006. The aim of this article is to present how the idea for its building was created and the role of institutions and persons in the development of this idea. As an appendix are presented documents concerning its building.
