

**JOVAN GRUJIĆ**  
**2. 8. 1947 – 4. 11. 2006.**

Jovan Grujić became member of the Astronomical Society "Rudjer Bošković" in the middle of sixties. He was one of the best astro amateurs: he participated in making two maps of the northern sky and photographs of celestial bodies. He was among the first lecturers in the Planetarium and the autor of many articles in "Vasiona".

He was interested in many subjects and became a professional art photographer.

The article contains his biography, extracts from the speeches on his funeral and memories on him told by members of the Society "Ruđer Bošković" and his friends.
