

STAFF OF ASTRONOMICAL OBSERVATORY SINCE THE FOUNDING UNTIL TODAY

Since the founding of the Observatory in 1887th until today, more than 400 workers connected their names with its development and progress. This paper is an attempt to put all those names on an ordered list, sorted alphabetically, with information about the time of service at the Observatory, the date and place of birth, and the data on working place, or work done on Observatory. Except those who were employed full-time, list includes those who worked at the Observatory on a part-time,.... about what, as well as about some other problems related to this list, are given the necessary explanations and comments in the introduction.
