

SPACE, TIME, SKY, MEASURES AND MEASURERS IN SPEECH OF UGLJARE AT KOSOVO POLJE AND IN DICTIONARY OF GLIŠA ELEZOVIĆ

Our subject in this work is the folk's terminology and lexic used in the speech of Ugljare at Kosovo Polje for celestial bodies, meteorological phenomena and in general, time. The lexic in connection with measures and measurers, which is a component of everyday speech of inhabitants of Ugljare, or is included in the dictionary of the dialect of Kosovo and Metohija, of Gligorije Gliša Elezović, is considered. Lexically-semantical analyzis of all lexemes is performed, and as an appendix to the work, a dictionary of considered terms is given.
