

XV NATIONAL CONFERENCE OF ASTRONOMERS OF SERBIA

The XVth National Conference of Astronomers of Serbia was held in 2008 in Belgrade, Serbia. The Conference gathered around hundred of Serbian astronomers and several guests from abroad. The Conference consisted of invited reviews, invited lectures, short talks, and posters covering all branches of astronomy and topics related to astronomy and similar fields. We note here that a separate section was devoted to the amateur astronomy and the International Year of Astronomy 2009. In this work we give a short review of the organization and the activities during and after the Conference.
