

AN ADDITIONAL VIEW ON COLLABORATION OF ASTRONOMICAL OBSERVATORY IN BELGRADE WITH HVAR OBSERVATORY

In this contribution we present two key documents related to the interruption of many years lasting collaboration of Astronomical observatory in Belgrade with Hvar observatory, which content was unknown during the writing of the larger work *The share of Astronomical observatory in Belgrade in construction of Hvar observatory and their later collaboration*, since than, they were not found in Archives of Belgrade observatory. This is the agreement on scientific collaboration, proposed by Belgrade astronomical observatory to Hvar observatory and the letter of its director Vladimir Ruždjak, in which he explains reasons why it can not be accepted.
