

COSMIC MOTIFS REPRESENTED IN TEXTBOOKS (READERS) FOR THE JUNIOR AND SENIOR CLASSES OF ELEMENTARY SCHOOL

Cosmic motifs in literary texts considered in the junior and senior classes of primary schools appear as a natural and logical part of life, that has increasingly revealed in this period of growing up. They are usually secondary, but their presence indicates that the human world is actually unlimited, and that the cosmic space always attracted attention of both children and adults, who thinking about it searched the answers to the most important questions of the existence.

In this paper the cosmic motifs, present in textbooks (readers) for junior and senior grades of elementary schools are considered.

Key words: Cosmic motifs, Text-books for primary school
