

X SERBIAN-BULGARIAN ASTRONOMICAL CONFERENCE

Serbian-Bulgarian astronomical conference series bring together astronomers and physicists not only from Serbia, Bulgaria and the Balkan region, but also beyond, as the tenth conference successfully demonstrated. It was attended impressively by 90 colleagues. Among them were representatives from Russia, Belarus, Latvia, Czech Republic, France and Austria. Unlike previous conferences, one of morning sessions was devoted to a meeting of the Eurasian Astronomical Society, as well as the meeting of its Board. X Serbian-Bulgarian astronomical conference was held in Belgrade, in the Festive Hall of the Faculty of Civil Engineering from 30.05 to 06.03.2016. Here we give a brief overview of the work of the Conference.

Key words: Astronomy, History of Astronomy
